

NHMRC Centre for Clinical Research Excellence in Respiratory and Sleep Medicine

Postgraduate Medical Research Scholarships

– Respiratory and Sleep Research

Closing date: 29th February 2008

The NHMRC Centre for Clinical Research Excellence for Respiratory and Sleep Medicine is based at a network of hospitals in Sydney and Newcastle and has been funded by the NHMRC for five years to support research training and research translation in the fields of respiratory and sleep medicine.

Applications are invited for the above scholarship(s) for research towards a higher degree commencing 2008. The scholarships are for research that will be supervised or co-supervised by the CCRE investigators (listed below) at the participating institutions. Preference will be given to candidates enrolled, or intending to enrol, in a PhD. The award will be for one year in the first instance and renewable annually for a maximum of 2 years. The scholarship will be administered through the Research Office of the University of Sydney or the University of Newcastle.

The award will be issued on the terms and conditions of the current NHMRC post-graduate research scholarship and the stipend will be equivalent. Successful applicants who are subsequently awarded an NHMRC or other post-graduate research scholarship will relinquish their CCRE scholarship. It is expected that scholarship holders will apply for an NHMRC or other scholarship during the first year of tenure of the CCRE scholarship. Applicants must be an Australian citizen, a New Zealand citizen or an Australian resident.

Investigator	Institutions	Email	Field of Research
Prof Ron Grunstein	Woolcock Institute of Medical Research and RPA Hospital, Sydney	rrg@mail.med.usyd.edu.au	Sleep disorders
Prof Guy Marks	Woolcock Institute of Medical Research and Liverpool Hospital, Sydney	g.marks@unsw.edu.au	Asthma Tuberculosis Epidemiology
